Treatment Scripts

A clean, modern dental growth system for improving patient flow, follow-up, treatment communication, reviews, and trust-building content.

01

IMPROVE PATIENT FLOW

02

EDUCATE WITH CLARITY

03

STRENGTHEN REVIEWS

04

BUILD LASTING TRUST

USE THE SYSTEM

Make care easier to understand and act on.

Start with the next dental moment: new-patient inquiry, treatment explanation, hygiene recall, post-visit follow-up, review request, or case acceptance support.

01

Lead with reassurance

Use calm, specific language that helps people feel informed before they take the next step.

02

Support the journey

Connect content and templates to real care stages: consult, appointment, plan, follow-up, and return visit.

03

Keep trust consistent

Review every asset for accuracy, warmth, compliance awareness, and the tone of a premium practice.

Treatment Scripts

Use these assets to make education, communication, retention, and reactivation feel clear, polished, and easier to implement.

Script — Dentist Presenting Treatment Plan

DENTIST: [First Name], I want to walk you through what I found and why I'm recommending this treatment — I want to be honest with you so you can make the best decision for your health. DENTIST: What I found: [plain-language explanation. No jargon. Use visual aids where possible.] DENTIST: Why this matters: [consequence of delaying — honest, not fear-based. E.g., Right now it's a filling. If we wait until it's causing pain, it becomes a root canal — more expensive and more invasive.] DENTIST: What I'd recommend: [specific treatment in plain language — what it involves, how long it takes,

they'll cover approximately \$[amount], leaving your estimated out-of-pocket at around \$[amount]. Note — that's an estimate pending actual insurance response. COORDINATOR: We offer payment plan / CareCredit / interest-free financing if spreading the cost would be helpful. COORDINATOR: Any questions about the financial side before we look at scheduling? [Present the covered amount first, then the gap — not the total first. Your insurance covers \$X, leaving \$Y feels more manageable than \$X total, insurance pays \$Y.]
