BEFORE YOU USE IT

Make the system feel *personal*.

Use this file as the polished base. Replace brackets, offers, services, client details, and local language so every asset sounds like the business using it.

THE RULE

Keep the strategy intact, but make every client-facing line specific. Beauty buyers respond to trust, taste, timing, and a sense that the experience was designed for them.

BEST PRACTICE

Batch the assets weekly. Turn prompts into posts, templates into follow-ups, and brand direction into a consistent client experience across every touchpoint.
