CUSTOMER: How much do you charge for [problem]? DISPATCHER: Great question — I want to give you an honest number, not one I'll have to walk back. The cost depends on what's actually causing the issue. DISPATCHER: Our diagnostic fee is \$[amount] and applies toward the repair. For standard tune-ups, customers typically pay \$[X]. Larger issues depend on what we find. DISPATCHER: Can I get you scheduled? Our tech gives you an exact price before any work starts — zero surprises. [Never give firm prices for diagnostic work. Ranges are fine for standard services.]

Objection — Too Expensive

TECH: I hear you — more than you were hoping for. Can I ask what budget you were working with? I want to see if there's a way to make this work. TECH: We offer financing — you could spread this over [X] months at low or zero interest. Works out to about \$[monthly amount] a month. TECH: I also want to be honest: if you're comparing to a lower quote, it's worth asking what's included — licensing, insurance, warranty. We're licensed, insured, with a [X]-year workmanship guarantee. [Never just repeat the price. Address the real objection — budget, value, or trust.] Objection: Want to Think About It

03

Objection — Want To Think About It

DISPATCHER: Absolutely — take the time you need. Can I ask: is there anything specific you're weighing? Sometimes I can answer it right now. DISPATCHER: If it helps, we're booking [timeframe] out for [service type]. I can hold a slot for [24/48 hours] while you decide. [Give a soft reason to decide sooner. Never pressure, never guilt.] Objection: Got a Cheaper Quote

Objection — Got A Cheaper Quote

TECH: I appreciate you being upfront. Can I ask — was it for the same scope? Same equipment brand and efficiency rating? TECH: We're not always the cheapest and I won't pretend otherwise. What I can offer: [X]-year parts and labor warranty, licensed techs, and [X] years serving [City]. If the scope is genuinely identical, go with them. But if there's any doubt about what's included, that's worth clarifying first. [Respect the customer's intelligence. Never disparage competitors.]
