IMPLEMENTATION

Make the system feel made for the niche.

Start with the next style touchpoint: inquiry reply, style questionnaire, wardrobe audit follow-up, package pitch, seasonal content, or referral request.

01

Start with the buyer moment

Use the asset that matches the next decision your client, customer, or lead needs to make.

02

Make it sound specific

Swap bracketed language, services, location, timeline, pricing context, and proof so the system feels built for the business.

03

Create one weekly rhythm

Batch content, follow-ups, prompts, and client messages together so execution feels simple instead of scattered.

Hi [Name], I've been thinking about how many of our clients overlap and I wanted to propose something specific. What if we created a combined 'Style + Shoot' package? How it would work: the client books both services together (potentially at a

slight combined discount to incentivise the bundle). I style them 1-2 weeks before their shoot — wardrobe audit if needed, outfit selection for the session, shopping if required. They arrive at your lens completely ready. The photos
