

PREMIUM CLIENT TRUST SYSTEM

Med Spa *AI* Playbook

A practical AI operating system for filling consultations, reducing first-time anxiety, strengthening follow-up, and creating a premium client experience.

BEFORE YOU USE IT

Build trust before the appointment.

Customize the brackets, treatment names, provider credentials, policies, contraindications, and local rules before sending anything to a client.

THE RULE

Med spa marketing has to feel elevated and medically responsible. Use the system to educate, reassure, and invite the next step - never to overpromise results.

SAFETY NOTE

All treatment-specific claims, prep instructions, aftercare language, and review requests should be reviewed by the practice owner or qualified provider.

GROWTH ENGINE

Why AI matters in aesthetic practices.

01

The rebooking gap

RETENTION

Most clients intend to maintain results, but they need a timely, warm reminder. AI helps create consistent maintenance messages without making the team start from scratch.

02

The first-timer anxiety gap

CONSULTATION TRUST

New clients often need education before they feel ready. Use AI to explain what to expect, what to ask, and how to prepare in a calm, provider-reviewed tone.

03

The referral opportunity

HIGH-TRUST GROWTH

Happy clients refer when the ask feels natural and well timed. AI can draft referral and review messages that sound personal instead of transactional.

FIRST AI WINS

Install these workflows this week.

01

Pre-treatment education

BEFORE THE VISIT

Draft a short message explaining what to expect, what to avoid, and how the team will guide the client. Review for treatment accuracy before sending.

02

Post-treatment check-in

48-HOUR FOLLOW-UP

Send a care reminder, ask how they are feeling, and plant the seed for the next visit or maintenance plan.

03

Monthly content batch

VISIBILITY

Use the calendar prompts to create educational posts, myth-busting reels, FAQs, and consultation CTAs around your priority treatments.

FILL THE SCHEDULE

Use communication to turn interest into bookings.

01

Inquiry response prompt

PROMPT

Write a warm response to a [treatment] inquiry for [Spa Name] in [City]. Explain the consultation process, answer the likely concern, invite them to book, and keep it under 180 words.

02

Consult follow-up prompt

PROMPT

Write a personalized follow-up after a consultation for [treatment plan]. Recap goals, next steps, investment range, and booking link. Tone: reassuring, premium, no pressure.

03

Seasonal campaign prompt

PROMPT

Create a 2-week campaign for [season/event] promoting [treatment]. Include post ideas, email subject lines, and one soft consultation CTA.

RETENTION SYSTEM

Make the client journey feel managed.

01

Maintenance reminders

REPEAT VISITS

Set reminders by treatment type and typical maintenance window. Keep the tone educational and client-centered.

02

Package adherence

SERIES TREATMENTS

For laser, skin, or body protocols, create mid-plan encouragement messages that help clients understand why consistency matters.

03

New treatment introduction

EXISTING CLIENTS

When adding a service, invite relevant clients based on known goals. Avoid claiming outcomes; focus on suitability, consultation, and education.

CONTENT THAT CONVERTS

Educate first, then invite the consult.

01

Treatment myth

AUTHORITY

Explain one common misconception in plain language. End with a consultation invitation for personalized guidance.

02

Provider perspective

TRUST

Share how the provider thinks through client goals, safety, subtlety, and treatment planning.

03

FAQ carousel

CONVERSION CONTENT

Turn one repeated question into a 5-slide post: concern, answer, expectation, timing, next step.

IMPLEMENTATION

Your first 30 days.

1

Week 1: customize the inquiry, consult, prep, post-care, and maintenance templates.

2

Week 2: batch 12 posts from the calendar and publish 3 educational pieces.

3

Week 3: launch a lapsed-client win-back and package offer to the existing list.

4

Week 4: review replies, bookings, and questions. Turn every repeated question into content.
