PREMIUM TONE

BEFORE YOU USE IT

Every touchpoint should feel cared for.

Customize the brackets, treatment names, provider credentials, policies, contraindications, and local rules before sending anything to a client.

THE RULE

Med spa marketing has to feel elevated and medically responsible. Use the system to educate, reassure, and invite the next step - never to overpromise results.

SAFETY NOTE

All treatment-specific claims, prep instructions, aftercare language, and review requests should be reviewed by the practice owner or qualified provider.
