PRIVACY-SAFE

BEFORE YOU USE IT

A premium consult feels prepared.

Customize the brackets, treatment names, provider credentials, policies, contraindications, and local rules before sending anything to a client.

THE RULE

Med spa marketing has to feel elevated and medically responsible. Use the system to educate, reassure, and invite the next step - never to overpromise results.

SAFETY NOTE

All treatment-specific claims, prep instructions, aftercare language, and review requests should be reviewed by the practice owner or qualified provider.

INTAKE AND CONFIRMATION

Collect the right details early.

02

24-48 HOURS BEFORE

Confirm date, time, intake link, clean-face request, inspiration photo option, and a warm note that questions are welcome.

CONTRAINDICATION LANGUAGE

Protect trust and clinical standards.

01

If a concern appears

SCRIPT

Thank you for telling me. I want to approach this carefully because it may affect the safest treatment plan. Let me review this with our provider before we move forward.

02

If treatment should wait

SCRIPT

The best recommendation today is to wait or choose a different service. I know that can be disappointing, but I want your health and outcome protected first.

03

Pregnancy or breastfeeding

SCRIPT

We may pause certain treatments and focus on pregnancy-safe services or a post-delivery plan. The goal is for you to feel cared for, not turned away.

VIP LOYALTY

Make repeat clients feel seen.

01

VIP welcome

AFTER PACKAGE PURCHASE

Welcome them into the program, clarify benefits, and tell them exactly what happens next.

02

Seasonal early access

BEFORE PUBLIC LAUNCH

Invite loyal clients to first access for seasonal treatments, packages, or limited booking windows.

03

Birthday or milestone note

RETENTION

Use a short personal message with an optional service credit or consultation invitation.

REVIEW RESPONSE RULES

Public replies need privacy discipline.

01

Positive review

PUBLIC

Thank the client warmly without naming treatment details. Keep it simple, gracious, and local-search friendly.

02

Negative review

PUBLIC

Acknowledge, apologize for the experience, and invite them to contact the practice directly. Do not discuss treatment, diagnosis, or outcome publicly.

03

Internal follow-up

PRIVATE

Document the concern, review with the provider, and respond through the appropriate private channel.

— MOST VALUABLE WORKFLOW

Install intake + follow-up first.

The intake form protects the consult. The follow-up system protects retention. Together they make the practice feel more premium immediately.
